BIG BATTLE RAGING

Combined Japanese Fleet Engaged the Russian Forts and Warships at Port Arthur.

THIRTY JAPS TAKEN PRISONERS.

Three Fire Ships Were Sunk by the Russian Batteries in the Entrance to the Harbor.

Four Were Blown Up By Coming in Contact With a Mine and Another One Was Wrecked on the Shore.

Port Arthur, May 4.—(Censored).—Another naval battle is in progress at this writing with the result in doubt. The combined Japanese fleet, under command of Adm. Togo, appeared off Port Arthur at dawn Tuesday morning and at once engaged the Russian forts and warships in the inner harbor. Thirty Japanese have been taken prisoners.

At 1 o'clock Tuesday morning five Japanese torpedo boats were sighted and the Russian land batteries and the gunboat Giliak and the coast defense vessels Gremishih and Otavashni opened fire and compelled them to retire. Immediately afterwards other Japanese ships were sighted on the horizon. They were headed by a fireship, which was sunk near the entrance of the harbor at 1:20 a. m.

After an interval of 25 minutes two more fireships came on and were sent to the bottom.

At 2:25 four more fireships approached. Three of these blew up on our mine. Two of these sank immediately and the other two fireships were sunk by the batteries and warships.

The protected cruiser Askold participated in the firing.

Fifteen minutes later three more fireships arrived. One of them blew up on a mine, the second vessel was wrecked on the shore and the third was sunk by the Russian shells.

The Japanese attack still continues.

The crews of the Japanese fireships which were sunk Tuesday morning while attempting to block the channel tried to save themselves by boats in which they put out to sea. A majority of them were killed by the Russian machine guns and rifles. Some of the survivors were picked up. At daybreak a number of Japanese were seen clinging to the masts and funnels of the sunken vessels, and these were rescued by the Russians. Thirteen of the wounded Japanese have since died. The Russians supplied the survivors with food and clothing and the wounded were taken to the hospital ship Mongolian.

St. Petersburg, May 4.—High Adm. Grand Duke Alexis has received the following official telegram from Viceroy Alexieff, reporting the Japanese attempt to blockade Port Arthur early Tuesday morning:

"I respectfully report to your highness that a fresh attack was made by the enemy Monday night with the object of obstructing the entrance to the port, and that it was successfully repelled.

"At 6 o'clock Tuesday morning five torpedo boats were perceived near the coast from the eastern batteries. Under the fire of our warships and the batteries they retreated southward.

"At 1:45 o'clock the first fireship, escorted by several torpedo boats was sighted and we opened fire upon it from the batteries and the warships. Three-quarters of an hour afterwards our searchlights revealed a number of fireships making for the entrance of the harbor from the east and southwest. The coast defense vessels Otavashni and Gremiescheli and the gunboat Siliak repulsed them by a well-directed fire.

"Altogether eight ships were sunk by our vigorous cannonade, by Whitehead torpedoes launched from our torpedo boats and by the explosion of several submarine mines. Further, according to the reports of the officers commanding the batteries, and the gunboat Siliak, two Japanese torpedo boats were destroyed.

"After 4 o'clock a. m. the batteries and warships ceased fire, subsequently firing only at intervals on the enemy's torpedo boats which were visible on the horizon.

"All the fireships carried quick-firing guns with which they maintained a constant fire.

"Up to the present 30 men, including two mortally wounded officers who took refuge on a launch, or were rescued from the fireships by us, have been picked up. The inspection of the roadstead and the work of saving the enemy's men was hindered by the heavy sea running. We suffered no casualties with the exception of a seaman belonging to the torpedo boat destroyer Boeovoi.

"On the appearance of the first fire-

ship accompanied by the enemy's torpedo boats I boarded a launch and proceeded to the Otavashni to take immediate measures for repulsing the fireships. With me were Lieut. Gen. Zalinski and Capt. Eberhardt, of the naval general staff. Lieut. Gen. Stoessel was on the fortifications at the same time, and Gen. Loschinsky, chief of the defense force of the forts, was on board the Giliak."

THE ALASKAN BOUNDARY.

It Will Be Determined By American and Canadian Surveyors.

Vancouver, B. C., May 4.—W. F. King, Canadian boundary commissioner, is en route to Vancouver to arrange for the dispatch of three Canadian parties of surveyors who are to work jointly with the American surveyors in delimiting the Alaskan boundary under the London award last year. Two Canadian and two United States parties will survey the country where the boundary will cross the headwaters of the Lynn canal, Chilkat river. A joint party will make a survey on the Stikine. This will delimit the more important district through which the boundary will pass. The total distance to be surveyed extends about 550 miles from Mt. St. Elias and south.

DISASTROUS CLOUDBURST.

The Principal Streets of Austin, Tex., Were Wrecked.

Austin, Tex., May 4.—This section and all Central Texas was visited by a terrific cloudburst Tuesday. The principal streets of the city were wrecked by the flood and great damage was done to crops in the fields. A number of bridges were washed away and country roads will be impassable for several days. Trains arriving here from the north came through water six inches deep on the track and the train crews had to clear the track of drift at many points. Three railroad bridges and much track were washed away in this immediate vicinity.

A BRAVE WOMAN.

Fired the Contents of Both Barrels of a Shotgun Into a Bandit.

Eureka Springs, Ark., May 4.—Mrs. Rena Rhie fired both barrels of a shotgun into a highwayman as he stood on her porch Tuesday waiting for her to deliver up her cash and valuables. The masked bandit appeared at the Rhie home a short time after her husband had started to town. Mrs. Rhie appearing to a acquiesce to the robbers' demand, went to a closet, seized the gun and fired. The man fell at the first shot, but managed to get away. Sheriff Morris and posse are searching the surrounding woods and his escape in his weakened condition is hardly possible.

SPEAKER CANNON.

He is Not a Candidate For the Vice Presidency.

Washington, May 4.—"Even at the risk of being accused of declining that which I probably could not get, if I desired, I answer most unequivocally if the nomination were tendered to me I would not accept it under circumstances whatever." Thus strongly did Speaker Cannon, in an authorized interview with a Post reporter Tuesday emphasize his determination with reference to the vice presidency. As he concluded dictating what he had to say the speaker added: "If there is any language which can be more decisive, write it in."

COURT'S FINDINGS.

The Report on the Cause of the Accident on the Battleship Missouri.

BLAMED ON SMOKELESS POWDER.

An Unexpected Ignition of the Two Sections of the Charge Then in the Gun.

Rr. Adm. Walker Declares That the Properties of the Explosive Have Not Been Fully Understood By Those Using It.

Washington, May 4.—By order of Mr. Darling, acting secretary of the navy, the full findings and opinion of the court of inquiry which investigated the accident of April 13 on board the battleship Missouri were made public at the navy department Tuesday with the announcement that action by the department was postponed pending careful consideration of the findings by Rr. Adm. George A. Converse, chief of the bureau of ordnance, who will make a full report on them. Textually the finding of the court reads:

"That the cause of said accident was the unexpected ignition of the two sections of the charge of smokeless powder, then in the gun, by what is termed throughout the proceedings a 'Flare back,' a flame resulting from the ignition, in some manner not yet known, of residual gases attendant upon the combustion of the smokeless powder now in use.

"That the flame from these sections ignited the two other sections then in the ammunition car and that a shower of burning powder grains from those sections in the turret was projected down the open trunk which connects the turret with the 12-inch handling room, igniting there eight other sections of the smokeless powder, two charges of which had been taken out of the magazines and were in that place. That said accident in said vessel was on occasion named, in no respect due to fault or negligence on the part of any of the officers or members of the crew of said vessel.

"The court further finds that every officer and man in said vessel did his whole duty and in circumstances probably the most trying that can come to men afloat."

Rr. Adm. Barker, commander-in-chief of the North Atlantic fleet, in his review of the findings, declares that the navy has a smokeless powder "the properties of which have not been fully understood either by those using it on board our ships or by those who make and issue it for service."

"Rapid firing," he continued, "has brought to light some of these hitherto unknown or dimly perceived properties, but an exhaustive investigation in laboratory and in experimental firing on shore is still needed."

Adm. Barker says in the bravery displayed by the officers and men of the Missouri:

"The disaster was appalling, but it developed heroes. History records no more heroic act than that of Monsoon, who crawled through a hole into the burning magazine to put out the flames. He calls attention to those points brought out in the testimony:

"1. Exhaustive inquiry as to the nature of the gases given off by smokeless powder which remain in the gun or cartridge cases and whether or not these gases can be prevented.

"2. Whether it be possible to arrange the interior of turrets so as to separate one gun from another, but both from the handling rooms, making accidents from exploding shell or burning powder improbable if not impossible."

REPUBLICAN CONVENTION.

Threatened Contests Between Bradley and Yerkes Did Not Take Place.

Louisville, Ky., May 4.—The threatened contest between former Gov. W. O. Bradley and Commissioner of Internal Revenue John W. Yerkes, for the control of the republican state and central committee failed to materialize at the convention Tuesday. In two speeches which won him ovations Mr. Bradley declared for harmony. He moved that the rules and order of business be suspended before the report of the committee on credentials should be announced and that Mr. Yerkes, the temporary chairman, be unanimously declared permanent chairman. The same motion applied to the retention of Samuel J. Roberts and Young E. Allison as permanent secretaries. The motion was carried unanimously after it had been held up for some time by former Congressman John D. White, who was finally howled down. The platform adopted endorses the administration of President Roosevelt, "which, following as it has done the policy of William McKinley, has continued with unabated force the marvelous prosperity with which our country has been blessed since the return of the republican party to power in 1897."

Richard P. Ernest, of Covington, and George M. Long, of Leitchfield, were nominated by acclamation to serve with Mr. Bradley, leaving one more delegate at large to be selected.

The practice of previous state conventions having been to name a Negro delegate at large, the remaining position on the delegation was contested for by several of that race. Dr. E. E. Underwood, colored, of Frankfort, was nominated.

WILL BE CONSTANTLY IN BLOOM.

Locomotive Laboratory Tests Will Begin Daily in the Transportation Building, World's Fair.

The Cancelling Machine in Exposition Post Office Is in Operation—First Letter Cancelled Addressed to President Francis.

St. Louis, May 4.—A general demand is being made for photographic season tickets to the fair. The price originally named for placing the owners' photograph on each coupon of the season ticket book was \$2, but considerable complaint was made and the price was reduced to \$1. This met with general approval and the sales up to Tuesday have amounted to 8,700 season ticket coupon books.

The cancelling machine in the World's fair post office was put into operation Tuesday and the first letter to be cancelled was addressed to President Francis, from Farran Zerbe, chief of the souvenir coin department. The envelope bore a three-cent stamp designed especially for the Philadelphia centennial in 1876; a two-cent stamp of the Columbian exposition in Chicago in 1893; a two-cent stamp of the Trans-Mississippi exposition at Omaha in 1898; a two-cent Pan-American exposition stamp from Buffalo in 1901, and the Louisiana purchase exposition stamp of 1904.

During the exposition prominent organists from all parts of the country will preside at organ recitals, beginning the middle of May.

Locomotive laboratory tests will soon begin daily in the transportation building. Twelve sample locomotives whose wheels rest on rollers will be run at full speed, each in turn by the same crew. The tests will be conducted under the auspices of the American Societies of Mechanical Engineers.

Announcement was made Tuesday that exhibitions by the United States life saving service under Capt. Chas. H. McLellan will take place every afternoon in Filippino lake, at the base of agricultural hall.

In a letter received by President Francis, Comte Eugene Brunetta d'Usseaux, secretary general of the International Olympic committee, and the Italian representative of the body, expresses his regret at his probable inability to attend the exposition at the time of the Olympian games.

Ten states and two foreign countries have completed their exhibits in the palace of education. The work on the remaining exhibits which are complete are Colorado, Connecticut, Kentucky, Wisconsin, Iowa, Minnesota, New York, Tennessee, Virginia and New Jersey.

Maysville Man in Trouble.

(Pittsburgh Blade.)

William Nance, an employe at the terminals, was before Mayor Milstead Monday morning on the charge of carrying concealed weapons. It seems that Nance, who claims his residence at Maysville, Ky., pulled a gun on Norman Pyles, and arrest followed. He pleaded guilty to the charge and said he carried the gun because there was a strike going on and he was looking for trouble. Fifteen dollars and costs, a total of \$20, was the result. Nance was unable to pay the amount and was sent to jail.

Mrs. Alice Payne killed a large copper-head snake near the almshouse Tuesday. Her young son Delmore narrowly escaped being bitten by the reptile.

Mr. William Carver, whose health has been failing, was adjudged of unsound mind Tuesday and was taken to the Lexington asylum this morning. He is suffering from softening of the brain, and has become violent of late.

Minstrelsy is a popular form of American amusement. The old school of minstrelsy is a pleasant recollection; it was superseded by the school made famous by the late Billy West, Geo. Primrose and Dan Emmett. Still, a new school is to the front, and the leader in this is Ted E. Faust, who has distanced all competitors along the lines of refined and artistic humor. Managers Russell, Dye & Frank of the opera house have engaged the Faust Suburb Minstrels for Monday, May 9th. The singing, the dancing, the comedy and the music is on a scale higher than ever before attempted.

The annual entertainment of the department of physical culture at Haywood is always looked forward to by the public with pleasureable anticipation. The entertainment this year promises to be of unusual interest. The children's class will furnish a number of new and attractive drills in dumb-bells, clubs, wands and long poles. The young ladies will give some advanced work in artistic gymnastics and Indian clubs. The entertainment will close with a burlesque entitled, "The Ladies Speak at Last." When ladies are permitted to speak their minds they usually have something of interest to say, at least this will be true of some of Shakespeare's heroines who will be given this privilege at the opera house Friday evening, May 6th. Music for the drills will be furnished by the Maysville Orchestra. Those who have already secured their tickets may have them reserved without extra charge. Box sheet will be opened at Mr. Ray's drug store Wednesday morning.

GIFT AT PARTING.

Former Maysvillian Handsomely Remembered by Railway Men on Leaving Buffalo.

(Buffalo, N. Y., Inquirer, April 30th.)

To-day practically marks the close of the Clover Leaf office in Buffalo, and the departure from this city of the former Commercial Agent here, B. C. Stevenson. It will be gratifying to Mr. Stevenson's friends to know that he will take a better and more responsible position at Toledo than he had in Buffalo. He has been appointed Commercial Agent for the Clover Leaf at Toledo, and he will have charge of all the traveling freight agents who go out to Toledo. As that is the headquarters of the line, there will be several of these traveling men, who are to report to Mr. Stevenson. This is a high testimonial to Mr. Stevenson's work while in charge of the local office.

Shortly after noon quite a number of prominent passenger and freight representatives in Buffalo gathered in the office of the Chicago, Milwaukee and St. Paul. H. A. Thomas, District Passenger Agent of the New York Central here, addressed Mr. Stevenson. He told how Mr. Stevenson had come to Buffalo, practically among strangers, how the railroad boys had received him into their midst, and how he had won friends, both among the members of his own fraternity and among many others in this city and vicinity. These had been won, Mr. Thomas explained, not only through his business ability, but also because of his genial and happy disposition.

"We are met here to wish you Godspeed. We can only weakly express our wishes in that direction. That beats in each of our hearts stronger than the lips of the speaker could express it. We know of your success here; we feel assured of it in the future. It is with much pleasure that we learn that in this change in policy of your employers you have landed on both feet. As a partial expression of the feeling of regret we have at your departure and the wishes of Godspeed, we ask you to accept this token."

E. T. Nicolay, Commercial Agent of the C. M. and St. P., came from behind Mr. Stevenson with a handsome leather traveling satchel, and in it a most complete and handsome toilet set. Mr. Stevenson had suspected that something was "doing," when the boys began to come around. But he was overwhelmed at this time. He responded briefly to the presentation speech, outlining how he had been received by the railroadmen in Buffalo and how much he appreciated their expression of best wishes for the future.

The Bee Hive

THREE YEARS YOUNG!

That's what we are, three years young, and in this short time we have the leading business in this section of Kentucky. Some merchants advertise that you should buy their goods because they have been in business forty years or more. If you want a Mohair Skirt and they do not keep them you should buy the goods because their fathers and your father went to school together.

Saturday was the banner day of the Bee Hive's existence. We estimated FIVE THOUSAND PEOPLE VISITED OUR STORE. More than some stores have in ten years. They came here

BECAUSE we carry the best line of merchandise.

BECAUSE we mark our goods in plain figures.

BECAUSE our goods are better for the money than anywhere else.

BECAUSE we welcome comparison with any store in the world.

BECAUSE we are not forty old but three years young, and our motto is "If our stuff ain't right, why you needn't come round."

This week Mohair Skirts are selling fast—blacks and blues, and that pretty blue you like too, \$5.95 to \$10.95.

MERZ BROS.

Some persons are circulating a report that the Globe Stamps will be stopped. This report is false. We are giving out more than ever and will continue doing so. Globe Stamps have come to stay. COL. REES DOBYNS.

A Former Popular Citizen of Maysville Died Suddenly at Huntington, W. Va., Tuesday Evening.

Mr. J. F. Barbour received a telegram last evening announcing the sudden death of Col. Rees Dobyns at the Florentine Hotel, Huntington, W. Va. The sad message was from Mr. Dobyns' wife and gave no particulars except that he died very suddenly.

Mr. Dobyns was a native of Maysville, and was about sixty-five years old. His father was the late Richard Dobyns, who served this city as Mayor a number of years. His mother, the venerable Mrs. Emily Dobyns, is still living, and has been making her home with him at Proctorville, O., since the death of her daughter, Mrs. Hal Gray. Col. Dobyns was a grandson of John Armstrong, a pioneer citizen of Maysville who died some years ago in Paris, France, leaving a large estate to his heirs.

A large circle of old friends learn with sorrow of Mr. Dobyns' death. He grew to manhood here, and was for several years prominent in political and municipal affairs, holding the office of Collector of Taxes for a term or two. On leaving Maysville he became a resident of Proctorville, O., where he owned a beautiful home.

His wife, who survives, was a Miss Littlejohn, sister of Editor Littlejohn of Grayson, Ky. He leaves two daughters and one son.

No information has been received yet as to the funeral arrangements.

Shaw took part in the rendition of an interesting and entertaining program of songs and recitations.

Senator Cox has returned from St. Louis where he attended the opening of the World's Fair. He is very enthusiastic over Kentucky's display. It is far ahead of that of any other State, and all the details and arrangements about the building are in better shape. He confirms to some extent the reports about the exorbitant rates charged at the hotels and restaurants. His room at the hotel where he stopped cost \$7 a day and that did not include meals. People who expect to attend the fair had better make their arrangements before going.

D. Hechinger & Co.

Just a few words about our spring stock and spring business. From all sections of the country you hear rumors of dull trade mainly attributed to the long continued phenomenal cool weather. "It is our privilege to tell a different story." The past month's (April) business shows way beyond the same month's business for many years. Now we know that so far Spring Clothing has not been needed, but our present stock of Men's, boys' and Children's wear is so irresistible in styles, qualities and prices that our people just had to buy after looking at them.

The same holds good with our Shoes. GOOD Shoes were needed in Maysville. We bought that kind—HANAN and DOUGLAS—and we are selling them.

Look at our May offerings in our next "ad."

Increase of Wages at the Hall Plow Factory.

"When self the wavering balance holds, 'tis rarely right adjusted." There has never in the history of this manufacturing plant been said that all was "self" and food and raiment for employees were a secondary consideration. A great God have mercy on the employees of "self." When I walk under the shadow of the enduring granite memorial of the founder of this industrial mart I feel as an officer will say to you when you step inside the Grant mausoleum at River Side Park, "Hats off!" When the environment of employers is with the men at the forge, bench and machinery of his industry every day, you may look for a throbbing impulse of better condition of employees at every move of his meandering through the labyrinth of his work.
